## From the leader in slit lamp imaging

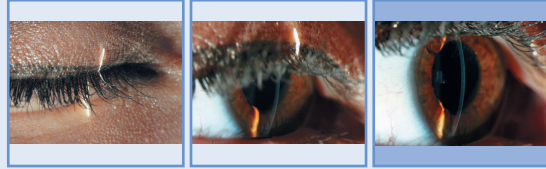

**Slit Lamp BD 900®**

Camera Module CM 900®, exceptional imaging solution for the BD 900®, BP 900® and BMV 900®<sup>2)</sup> slit lamp. Combination of the CM 900® with EyeCap™ or EyeSuite™ Imaging completes the perfect imaging system.

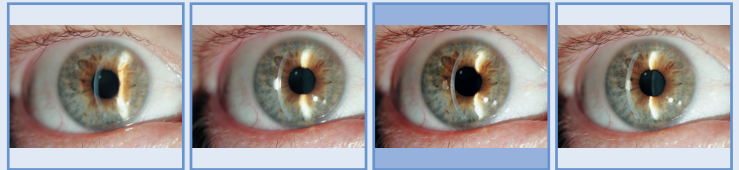

<sup>2)</sup> BMV discontinued

### FREEZE TECHNOLOGY

**Freeze technology:** Captures at the precise moment you press the trigger.

### HISTORY TRIGGER\*

**Rewind time and freeze the moment:** The history trigger not only captures one image but records the last few seconds in real time and lets you return to select the optimum image.

**Slit Lamp BP 900®**  
(In combination with LED Illumination and CM 900®)

### EASY TOUCH (optional)

**Control the image:** Easy touch is more than just a trigger, allowing simple, ergonomic management of the camera settings.
